Environment & Sustainability

Securing *tomorrow* today

The next generation should inherit something better.

From wealth to a healthier planet, Bordier continues to act as a pioneer in preservation.

In our industry, the opinion is that profitability and sustainability are two very different things. We believe they can benefit each other, and our Planet I Profit program is all about aligning the two.

Testimonials

What our Clients

say about us

My wealth manager is the son of my parents' wealth manager and the grandson of my grandparents' wealth manager. My family's financial affairs have been managed by the same family of wealth managers for 3 generations. Our families have been closely linked for 3 generations, which creates an exceptional level of trust and advice.
